COAISGS0 - Total cost of attendance -students awarded grant and scholarship aid, 2021-22

Total cost of attendance -for full-time, first-time degree/certificate-seeking undergraduates paying the in-state or in-district tuition rate who were awarded grant or scholarship aid from federal, state or local governments, or the institution. Other sources of grant aid are excluded. Aid awarded anytime during the full aid year is included. Total cost of attendance is the sum of published tuition and required fees (lower of in-district or in-state), books and supplies and the weighted average food and housing and other expenses. The weighted average for food and housing and other expenses is generated as follows: (amount for on-campus food, housing and other expenses * # of students living on-campus. + amount for off-campus (with family) food, housing and other expenses * # of students living off-campus with family + amount for off-campus (not with family) food, housing and other expenses * # of students living off-campus not with family). Note: This Cost of attendance is used to generate net price across all housing categories and will differ from total costs of attendance, reported for each housing category.

NPIST2 - Average net price-students awarded grant or scholarship aid, 2023-24

Average net price for full-time, first-time degree/certificate-seeking undergraduates paying the in-state or in-district tuition rate who were awarded grant or scholarship aid from federal, state or local governments, or the institution. Other sources of grant aid are excluded. Aid awarded anytime during the full aid year is included. Average net price is generated by subtracting the average amount of federal, state or local government, or institutional grant and scholarship aid from the total cost of attendance. Total cost of attendance is the sum of published tuition and required fees (lower of in-district or in-state), books and supplies and the weighted average food and housing and other expenses. The weighted average for food and housing and other expenses is generated as follows: (amount for on-campus food, housing and other expenses * # of students living on-campus. + amount for off-campus (with family) food, housing and other expenses * # of students living off-campus with family + amount for off-campus (not with family) food, housing and other expenses * # of students living off-campus not with family) divided by the total # of students. Students whose living arrangements are unknown are excluded from the calculation. For some institutions the # of students by living arrangement will be known, but dollar amounts will not be known. In this case the # of students with no corresponding dollar amount will be excluded from the denominator. Applicable to public institutions with standard calendar systems (semester, quarter, trimester, 4-1-4) that report financial aid data for students enrolled for the FALL and awarded aid anytime during the full aid year. Full-time, first-time degree/certificate-seeking undergraduates - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate level, who has no prior postsecondary experience, and is enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more clock hours a week each term. In-state tuition is the tuition charged by institutions to those students who meet the state's or institution's residency requirements. In-district tuition is the tuition charged by the institution to those students residing in the locality in which they attend school and may be a lower rate than in-state tuition if offered by the institution.

NPIS42 - Average net price - all students awarded Title IV federal financial aid, 2023-24

Average net price for full-time, first-time degree/certificate-seeking undergraduates paying the in-state or in-district tuition rate who were awarded title IV federal student aid - all income levels. Title IV federal student aid, includes federal grants or federal student loans. Average net price is generated by subtracting the average amount of federal, state or local government, or institutional grant and scholarship aid from the total cost of attendance. Total cost of attendance is the sum of published tuition and required fees (lower of in-district or in-state), books and supplies and the weighted average food and housing and other expenses. The weighted average for food and housing and other expenses is generated as follows: (amount for on-campus food, housing and other expenses * # of students living on-campus. + amount for off-campus (with family) food, housing and other expenses * # of students living off-campus with family + amount for off-campus (not with family) food, housing and other expenses * # of students living off-campus not with family) divided by the total # of students.

NPIS411 - Average net price (income 0-30,000)-students awarded Title IV federal financial aid, 2022-23

Average net price for full-time, first-time degree/certificate-seeking undergraduates paying the in-state or in-district tuition rate who were awarded title IV federal student aid - INCOME LEVEL (0-30,000). Title IV federal student aid, includes federal grants or federal student loans. Average net price is generated by subtracting the average amount of federal, state or local government, or institutional grant and scholarship aid from the total cost of attendance. Total cost of attendance is the sum of published tuition and required fees (lower of in-district or in-state), books and supplies and the weighted average food and housing and other expenses. The weighted average for food and housing and other expenses is generated as follows: (amount for on-campus food, housing and other expenses * # of students living on-campus. + amount for off-campus (with family) food, housing and other expenses * # of students living off-campus with family + amount for off-campus (not with family) food, housing and other expenses * # of students living off-campus not with family) divided by the total # of students. Students whose living arrangements are unknown are excluded from the calculation. For some institutions the # of students by living arrangement will be known, but dollar amounts will not be known. In this case the # of students with no corresponding dollar amount will be excluded from the denominator. Applicable to public institutions with standard calendar systems (semester, quarter, trimester, 4-1-4) that report financial aid data for the FALL and awarded aid anytime during the full aid year. Title IV aid to students includes grant aid, work study aid, and loan aid. These include: Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Academic Competitiveness Grant (ACG), National Science and Mathematics Access to Retain Talent Grant (National SMART Grant), Teacher Education Assistance for College and Higher Education (TEACH) Grant, Federal Work-Study, Federal Perkins Loan, Subsidized Direct or FFEL Stafford Loan, and Unsubsidized Direct or FFEL Stafford Loan. Full-time, first-time degree/certificate-seeking undergraduates - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate level, who has no prior postsecondary experience, and is enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more clock hours a week each term. In-state tuition is the tuition charged by institutions to those students who meet the state's or institution's residency requirements. In-district tuition is the tuition charged by the institution to those students residing in the locality in which they attend school and may be a lower rate than in-state tuition if offered by the institution.

These include: Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Academic Competitiveness Grant (ACG), National Science and Mathematics Access to Retain Talent Grant (National SMART Grant), Teacher Education Assistance for College and Higher Education (TEACH) Grant, Federal Work-Study, Federal Perkins Loan, Subsidized Direct or FFEL Stafford Loan, and Unsubsidized Direct or FFEL Stafford Loan. Full-time, first-time degree/certificate-seeking undergraduates - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate level, who has no prior postsecondary experience, and is enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more clock hours a week each term. In-state tuition is the tuition charged by institutions to those students who meet the state's or institution's residency requirements. In-district tuition is the tuition charged by the institution to those students residing in the locality in which they attend school and may be a lower rate than in-state tuition if offered by the institution.

NPIS450 - Average net price (income over 110,000)-students awarded Title IV federal financial aid, 2021-22

Average net price for full-time, first-time degree/certificate-seeking undergraduates paying the in-state or in-district tuition rate who were awarded title IV federal student aid - INCOME LEVEL (110,001 or more). Title IV federal student aid, includes federal grants or federal student loans. Average net price is generated by subtracting the average amount of federal, state or local government, or institutional grant and scholarship aid from the total cost of attendance. Total cost of attendance is the sum of published tuition and required fees (lower of in-district or in-state), books and supplies and the weighted average food and housing and other expenses. The weighted average for food and housing and other expenses is generated as follows: (amount for on-campus food, housing and other expenses * # of students living on-campus. + amount for off-campus (with family) food, housing and other expenses * # of students living off-campus with family + amount for off-campus (not with family) food, housing and other expenses * # of students living off-campus not with family) divided by the total # of students. Students whose living arrangements are unknown are excluded from the calculation. For some institutions the # of students by living arrangement will be known, but dollar amounts will not be known. In this case the # of students with no corresponding dollar amount will be excluded from the denominator. Applicable to public institutions with standard calendar systems (semester, quarter, trimester, 4-1-4) that report financial aid data for students enrolled for the FALL and awarded aid anytime during the full aid year. Title IV aid to students includes grant aid, work study aid, and loan aid. NPGRN2 - Average net price-students awarded grant or scholarship aid, 2023-24

Average net price for full-time, first-time degree/certificate-seeking undergraduates who were awarded grant or scholarship aid from federal, state or local governments, or the institution. Other sources of grant aid are excluded. Aid awarded anytime during the full aid year is included. Applicable to private not-for-profit and for-profit institutions with standard calendar systems (semester, quarter, trimester, 4-1-4) that report financial aid data for students enrolled for the FALL and awarded aid anytime during the full aid year. These institutions report cost of attendance for the full academic year. Also, applicable to public or private institutions that measure courses primarily by clock hours, or offers primarily occupational programs measured in credit hours with calendar systems that are continuous, or differs by programs. These institutions report financial aid data for students enrolled between the 12-month period (September 1 through August 31) and awarded aid anytime during the full aid year. These institutions report cost of attendance for their largest program for the length of that program. For institutions that report cost of attendance for the full academic year an average yearly net price is generated by subtracting the average amount of federal, state or local government, or institutional grant and scholarship aid from the total cost of attendance. Total cost of attendance is the sum of published tuition and required fees, books and supplies and the weighted average food and housing and other expenses. The weighted average for food and housing and other expenses is generated as follows: (amount for on-campus food, housing and other expenses * # of students living on-campus. + amount for off-campus (with family) food, housing and other expenses * # of students living off-campus with family + amount for off-campus (not with family) food, housing and other expenses * # of students living off-campus not with family) divided by the total # of students. Students whose living arrangements are unknown are excluded from the calculation. For some institutions the # of students by living arrangement will be known, but dollar amounts will not be known. In this case the # of students with no corresponding dollar amount will be excluded from the denominator. For institutions that report the cost of attendance for their largest program for the length of that program, the cost of attendance is generated as stated above, but is then divided by the number of months to complete the program to produce a monthly cost of attendance. The average amount of federal, state or local government, or institutional grant and scholarship aid is also divided by 12 to produce a monthly average. The average net price is generated by subtracting the average monthly grant and scholarship aid from the average monthly cost of attendance and the difference is multiplied by the number of months to complete the program. Full-time, first-time degree/certificate-seeking undergraduates - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate level, who has no prior postsecondary experience, and is enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more clock hours a week each term.

Title IV federal student aid, includes federal grants or federal student loans. Applicable to private not-for-profit and for-profit institutions with standard calendar systems (semester, quarter, trimester, 4-1-4) that report financial aid data for students enrolled for the FALL and awarded aid anytime during the full aid year. These institutions report cost of attendance for the full academic year. Also, applicable to public or private institutions that measure courses primarily by clock hours, or offers primarily occupational programs measured in credit hours with calendar systems that are continuous, or differs by programs. These institutions report financial aid data for students enrolled between the 12-month period (September 1 through August 31) and awarded aid anytime during the full aid year. These institutions report cost of attendance for their largest program for the length of that program. For institutions that report cost of attendance for the full academic year an average yearly net price is generated by subtracting the average amount of federal, state or local government, or institutional grant and scholarship aid from the total cost of attendance. Total cost of attendance is the sum of published tuition and required fees, books and supplies and the weighted average food and housing and other expenses. The weighted average for food and housing and other expenses is generated as follows: (amount for on-campus food, housing and other expenses * # of students living on-campus. + amount for off-campus (with family) food, housing and other expenses * # of students living off-campus with family + amount for off-campus (not with family) food, housing and other expenses * # of students living off-campus not with family) divided by the total # of students. Students whose living arrangements are unknown are excluded from the calculation. For some institutions the # of students by living arrangement will be known, but dollar amounts will not be known. In this case the # of students with no corresponding dollar amount will be excluded from the denominator. For institutions that report the cost of attendance for their largest program for the length of that program, the cost of attendance is generated as stated above, but is then divided by the number of months to complete the program to produce a monthly cost of attendance. The average amount of federal, state or local government, or institutional grant and scholarship aid is also divided by 12 to produce a monthly average. The average net price is generated by subtracting the average monthly grant and scholarship aid from the average monthly cost of attendance and the difference is multiplied by the number of months to complete the program. Full-time, first-time degree/certificate-seeking undergraduates - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate level, who has no prior postsecondary experience, and is enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more clock hours a week each term.

For institutions that report cost of attendance for the full academic year an average yearly net price is generated by subtracting the average amount of federal, state or local government, or institutional grant and scholarship aid from the total cost of attendance. Total cost of attendance is the sum of published tuition and required fees, books and supplies and the weighted average food and housing and other expenses. The weighted average for food and housing and other expenses is generated as follows: (amount for on-campus food, housing and other expenses * # of students living on-campus. + amount for off-campus (with family) food, housing and other expenses * # of students living off-campus with family + amount for off-campus (not with family) food, housing and other expenses * # of students living off-campus not with family) divided by the total # of students. Students whose living arrangements are unknown are excluded from the calculation. For some institutions the # of students by living arrangement will be known, but dollar amounts will not be known.

known. In this case the # of students with no corresponding dollar amount will be excluded from the denominator. For institutions that report the cost of attendance for their largest program for the length of that program, the cost of attendance is generated as stated above, but is then divided by the number of months to complete the program to produce a monthly cost of attendance. The average amount of federal, state or local government, or institutional grant and scholarship aid is also divided by 12 to produce a monthly average. The average net price is generated by subtracting the average monthly grant and scholarship aid from the average monthly cost of attendance and the difference is multiplied by the number of months to complete the program. Full-time, first-time degree/certificate-seeking undergraduates - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate level, who has no prior postsecondary experience, and is enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more clock hours a week each term.

chg1at0 - Published in-district tuition 2021-22

Price of attendance for full-time, first-time undergraduate students for the FULL ACADEMIC YEAR: (Tuition and fees, books and supplies, food and housing, and other expenses are those amounts used by your financial aid office for determining eligibility for student financial assistance) These data are published at the IPEDS College Navigator Web site In-district published tuition for 2021-22 IN-DISTRICT TUITION - The tuition charged by the institution to those students residing in the locality in which they attend school. This may be a lower rate than in-state tuition if offered by the institution. TUITION - Tuition is the amount of money charged to students for instructional services. Tuition may be charged per term, per course, or per credit. UNDERGRADUATE - A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate. FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more clock hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school). FIRST-YEAR STUDENT A student who has completed less than the equivalent of 1 full year of undergraduate work; that is, less than 30 semester hours (in a 120-hour degree program) or less than 900 clock hours. ACADEMIC YEAR - The period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 plan. Also included are "Other Academic calendar Systems" which is a category used to describe "non-traditional" calendar systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time".

CHG1TGTD - Published in-district tuition 2023-24 guaranteed percent increase (if applicable)

The percent increase at which tuition is guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or institution has a tuition guarantee program, but tuition for in-district students is not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

CHG1FGTD - Published in-district fees 2023-24 guaranteed percent increase (if applicable)

The percent increase at which required fees are guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or institution has a tuition guarantee program, but required fees for in-district students are not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

FULL-TIME Undergraduate - A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more clock hours a week each term FIRST-TIME FIRST-YEAR STUDENT - A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school). FIRST-YEAR STUDENT A student who has completed less than the equivalent of 1 full year of undergraduate work; that is, less than 30 semester hours (in a 120-hour degree program) or less than 900 clock hours. ACADEMIC YEAR - The period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 plan. Also included are "Other Academic calendar Systems" which is a category used to describe "non-traditional" calendar systems at 4-year and 2-year degree-granting institutions. These can include schools that offer primarily on-line courses or "one course at a time".

CHG2TGTD - Published in-state tuition 2023-24 guaranteed percent increase (if applicable)

The percent increase at which tuition is guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or institution has a tuition guarantee program, but tuition for in-state students is not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.

CHG3TGTD - Published out-of-state tuition 2023-24 guaranteed percent increase (if applicable)

The percent increase at which tuition is guaranteed for years students are enrolled. This variable will not have a percentage, if institution does not have tuition guarantee program, or insititution has a tuition guarantee program, but tuition for out-of-state students is not guaranteed. Tuition guarantee is a program where the institution guarantees, to entering first-time students, that tuition will not increase for the years they are enrolled. These guarantees are generally time-bound for four or five years.
